

***** IMPORTANT SCOR RULE UPDATE *****

Our goal has always been, and continues to be; to provide a fun, safe, fair environment to play indoor soccer and in order to ensure fair play, SCOR management has decided, starting Sunday 8/10/14, that teams will no longer be allowed to pick up guest players if that team has 7 or more players show up, that are on the official team roster. If a team shows up with less than 7 players, that team may pick up a maximum of 2 players that are not on the official team roster to reach the 7 player limit allowed on the field at one time, in order for the game to be played. Games can be played with a minimum of 5 players. If a team picks up more than 2 players, the game will still be played and refereed but the result will be 3-0 victory for the opponents.

In addition SCOR employees are no longer allowed to guest play on any team. If a SCOR employee is found to be guest playing, the game will result in a 3-0 victory for the other team.

Team managers; please check your team rosters to ensure that everyone that is supposed to be on your roster is on there. You can check your team roster by logging into your MySam account.

If you have any questions or need help getting into your MySam account please reply to this e-mail.

As always, we are continually looking to review all of our policies, including this rule, moving forward.
